BATTERY CATALOGUE - HEAVY DUTY VEHICLES

INTRODUCTION

Commercial vehicles of all types, trucks, busses and industrial and agricultural machinery have all witnessed big advancement in the last two decades. During that period, company C.I.A.K. Ltd. has gone through every step and together with the biggest battery manufacturers earned the reputation and trust of buyers with its offer of CIAK TRUCK HEAVY DUTY, SUPER HEAVY DUTY and PROFI battery lines.

Key decision for professional management of any vehicle fleet is the choice of battery. Battery is the heart of every vehicle and various parameters of use such as reliability, durability, use in extreme conditions and, above all, perfect value for money all depend on the battery.

CIAK TRUCK battery line possesses all these elements regardless of the part of its assortment.

> CIAK TRUCK PROFI

HGV (Heavy goods vehicles)

CIAK TRUCK PROFI batteries are specially designed for the most extreme road vehicles that, besides transporting maximum weight for moving on public roads, are frequently the only home to drivers. CIAK TRUCK PROFI is technologically designed for deep discharge of up to 80% of the overall capacity what makes it the unique product in the offer for this type of vehicles.

Large use of top consumers does not present any problem for CIAK TRUCK PROFI batteries even at the increased stopping period. The biggest advantage of this battery is in the number of recharging cycles which are 3 times higher than in standard technology.

Also, it is the only battery which to its users offers up to 30% bigger usability of the rated capacity. CIAK TRUCK PROFI offers exceptional starting power, as well as durability necessary for long driving and frequent use of consumers, when the vehicle is without ignition aggregate.

Long haul vehicles umjesto
long distance trucks

Passenger buses and
many consumers and
hotel function

Commercial vehicles,
many consumers incorporated for
performing their daily tasks.

Delivery vehicles

Vehicles that are frequently stopping and starting need extremely reliable battery. Demanding users have recognised CIAK TRUCK battery and it is proven to enable reliable charging during the whole life cycle, less blockages of performance and also less unsatisfied users of their services. Ideal technology installed in CIAK TRUCK batteries is adapted to the significant energy use and frequent short distances and it offers significantly better performances at increased number of charging and discharging cycles from other batteries on the market.

Delivery vehicles – frequent stopping and starting of ignition aggregate

*Busses in public transportation constant
performance in start-stop mode*

Construction machinery

Construction machinery is exposed to extreme working conditions, unusual environment and performance in the hardest weather conditions. CIAC Truck batteries have high starting voltage, passed tests of performance in extreme conditions, in combination with exceptional resistance. They are specially designed for vibration resistance and with special protection from electrolyte leaking (acid) or with the possibility to perform in times of biggest energy needs.

CIAK Truck batteries are completely impermeable to external conditions such as water, dust or some other elements that could permeate inside the battery and that way cause permanent damage.

Construction machinery - heavy work conditions with lots of vibration and exposure to dirt

> CIAK TRUCK HEAVY DUTY

CIAK TRUCK HEAVY DUTY

Batteries for commercial vehicles, trucks and industrial vehicles are a combination of high durability and exceptionally reliable use efficiency. Heavy duty batteries with technology for subsequent maintenance are ideal for vehicles with lower charging needs and alternative additional energy source. It is ideal for dump trucks, bulldozers, mini busses and tractors.

Its tested hybrid technology enables excellent performance with high charging reserves. Its tested quality and key investing in quality improvement and resistance to extreme working conditions (dust, frequent starting and stopping, vibrations) make it ideal choice for this type of vehicles.

Construction machinery - heavy work conditions with lots of vibration and exposure to dirt

CIAK TRUCK SUPER HEAVY DUTY

Battery that possesses all advantages of CIAK TRUCK HEAVY DUTY line with the addition that the technology of construction has gone one step further and enabled that this battery does not require maintenance (Maintenance Free) after installation. The emergence of this technology in massive application on trucks, vans, buses, firefighting vehicles or construction machines resulted in the maximum reduction of costs per vehicle unit. CIAK TRUCK SUPER HEAVY DUTY is primarily meant for vehicles that transport on long distances with rare return to base and demand as much as possible less maintenance and rare controls during exploitation period.

By applying labyrinth lid without classic steam caps that condensate during battery use they are returning to the battery. This procedure enables almost no loss of liquid from the battery. Also, labyrinth lid enables significant leaning of the battery in comparison to the standard battery. As additional safety batteries contain opening for venting and are safe from flames inside of the battery.

This SMF technology enables the use of entire space inside the battery. It also prevents sludge clustering beneath the electrodes. Also, faster battery charging with bigger quantity of acid solution (electrolyte) is achieved through this technology, what directly influences on the reduction of corrosion of uncovered lead collectors.

> CIAK STARTER TRACTOR PROFI

CIAK STARTER TRACTOR PROFI

Unique battery with specifications and technology primarily developed for extremely hard working conditions, exposure to long vehicle strains, working on high temperatures and the possibility of longer period of non-use during periods when such vehicles are not used (winter).

Its uniqueness primarily lies in the exceptional capacity of 110 Ah in the dimensions of the car battery with the unbelievable power strength of 1000 A.

Besides technical advantages, CIAK STARTER TRACTOR PROFI battery was tested in the hardest conditions of use, exposed to strong vibrations, specific ways of use, adapted to enhanced number of consumers such as platforms, cranes, various different implements used in agriculture which use the battery energy.

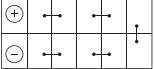

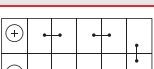

Agricultural vehicles – specific working conditions on high temperatures and exposure to strong vibrations

Recognised with machine manufacturers and profession, proven by every user.
CIKAK STARTER TRACTOR PROFI is highly technological battery for professionals.

> WE OFFER EVERYTHING YOU NEED FOR YOUR WASTE AND ENVIRONMENT

In the world of consumption and technological progress, company CIAK is able to follow you as a social and environmental partner of healthy environment. Our activities reflect the needs of the market and our long experience in hazardous and non-hazardous waste management.

We started with our first activities in 1995 with organized collection of old batteries and their treatment, followed by extension of activities to all hazardous/non-hazardous waste, as well as on all other activities related to environmental protection.

CIAK d.o.o. manages around 30 000 tons of hazardous and non-hazardous waste annually and is experienced in managing ALL types and categories of waste. We specially stress out that CIAK d.o.o. possesses premises, equipment and staff for managing over 70 000 tons of waste annually.

Center for management of hazardous and non-hazardous waste in Zabok is built for those purposes and is the only such building in Croatia with all the permits from the Ministry. There are vehicles on all locations, adequately equipped for logistic procedures with hazardous and non-hazardous waste. Besides infrastructure and logistics, our advantage are our employees with a lot of working experience in this sector, from manipulating waste in the warehouse, administrative tasks and commerce to professional engineers.

Our experience and knowledge guarantees provision of a wide range of service, from consulting in all aspects of environmental protection, remediation and cleanup of industrial plants – contaminated sites, to professional work in environmental protection.

To summarize, our offer can be divided
into following categories:

- Waste management
- Consulting (waste, water, air)
- Cleanup and maintenance of water drainage systems
- Professional activities in environmental protection
- Cleanup and remediation of contaminated sites and industrial plants

> CIAK ECO CYCLE

Company C.I.A.K. as the ecological leader for 20 years now, collects, recycles and recovers old batteries. It is the only company that, in its process of working with batteries, has a complete procedure, from selling new batteries and collecting old waste batteries to recycling them and producing lead. Greatest companies in the world use newly manufactured lead in production of new batteries.

The biggest advantage of cooperation with C.I.A.K. in this closed ecological cycle is such that partners who collect old batteries and hand them to authorized processor C.I.A.K., make additional profit from those batteries.

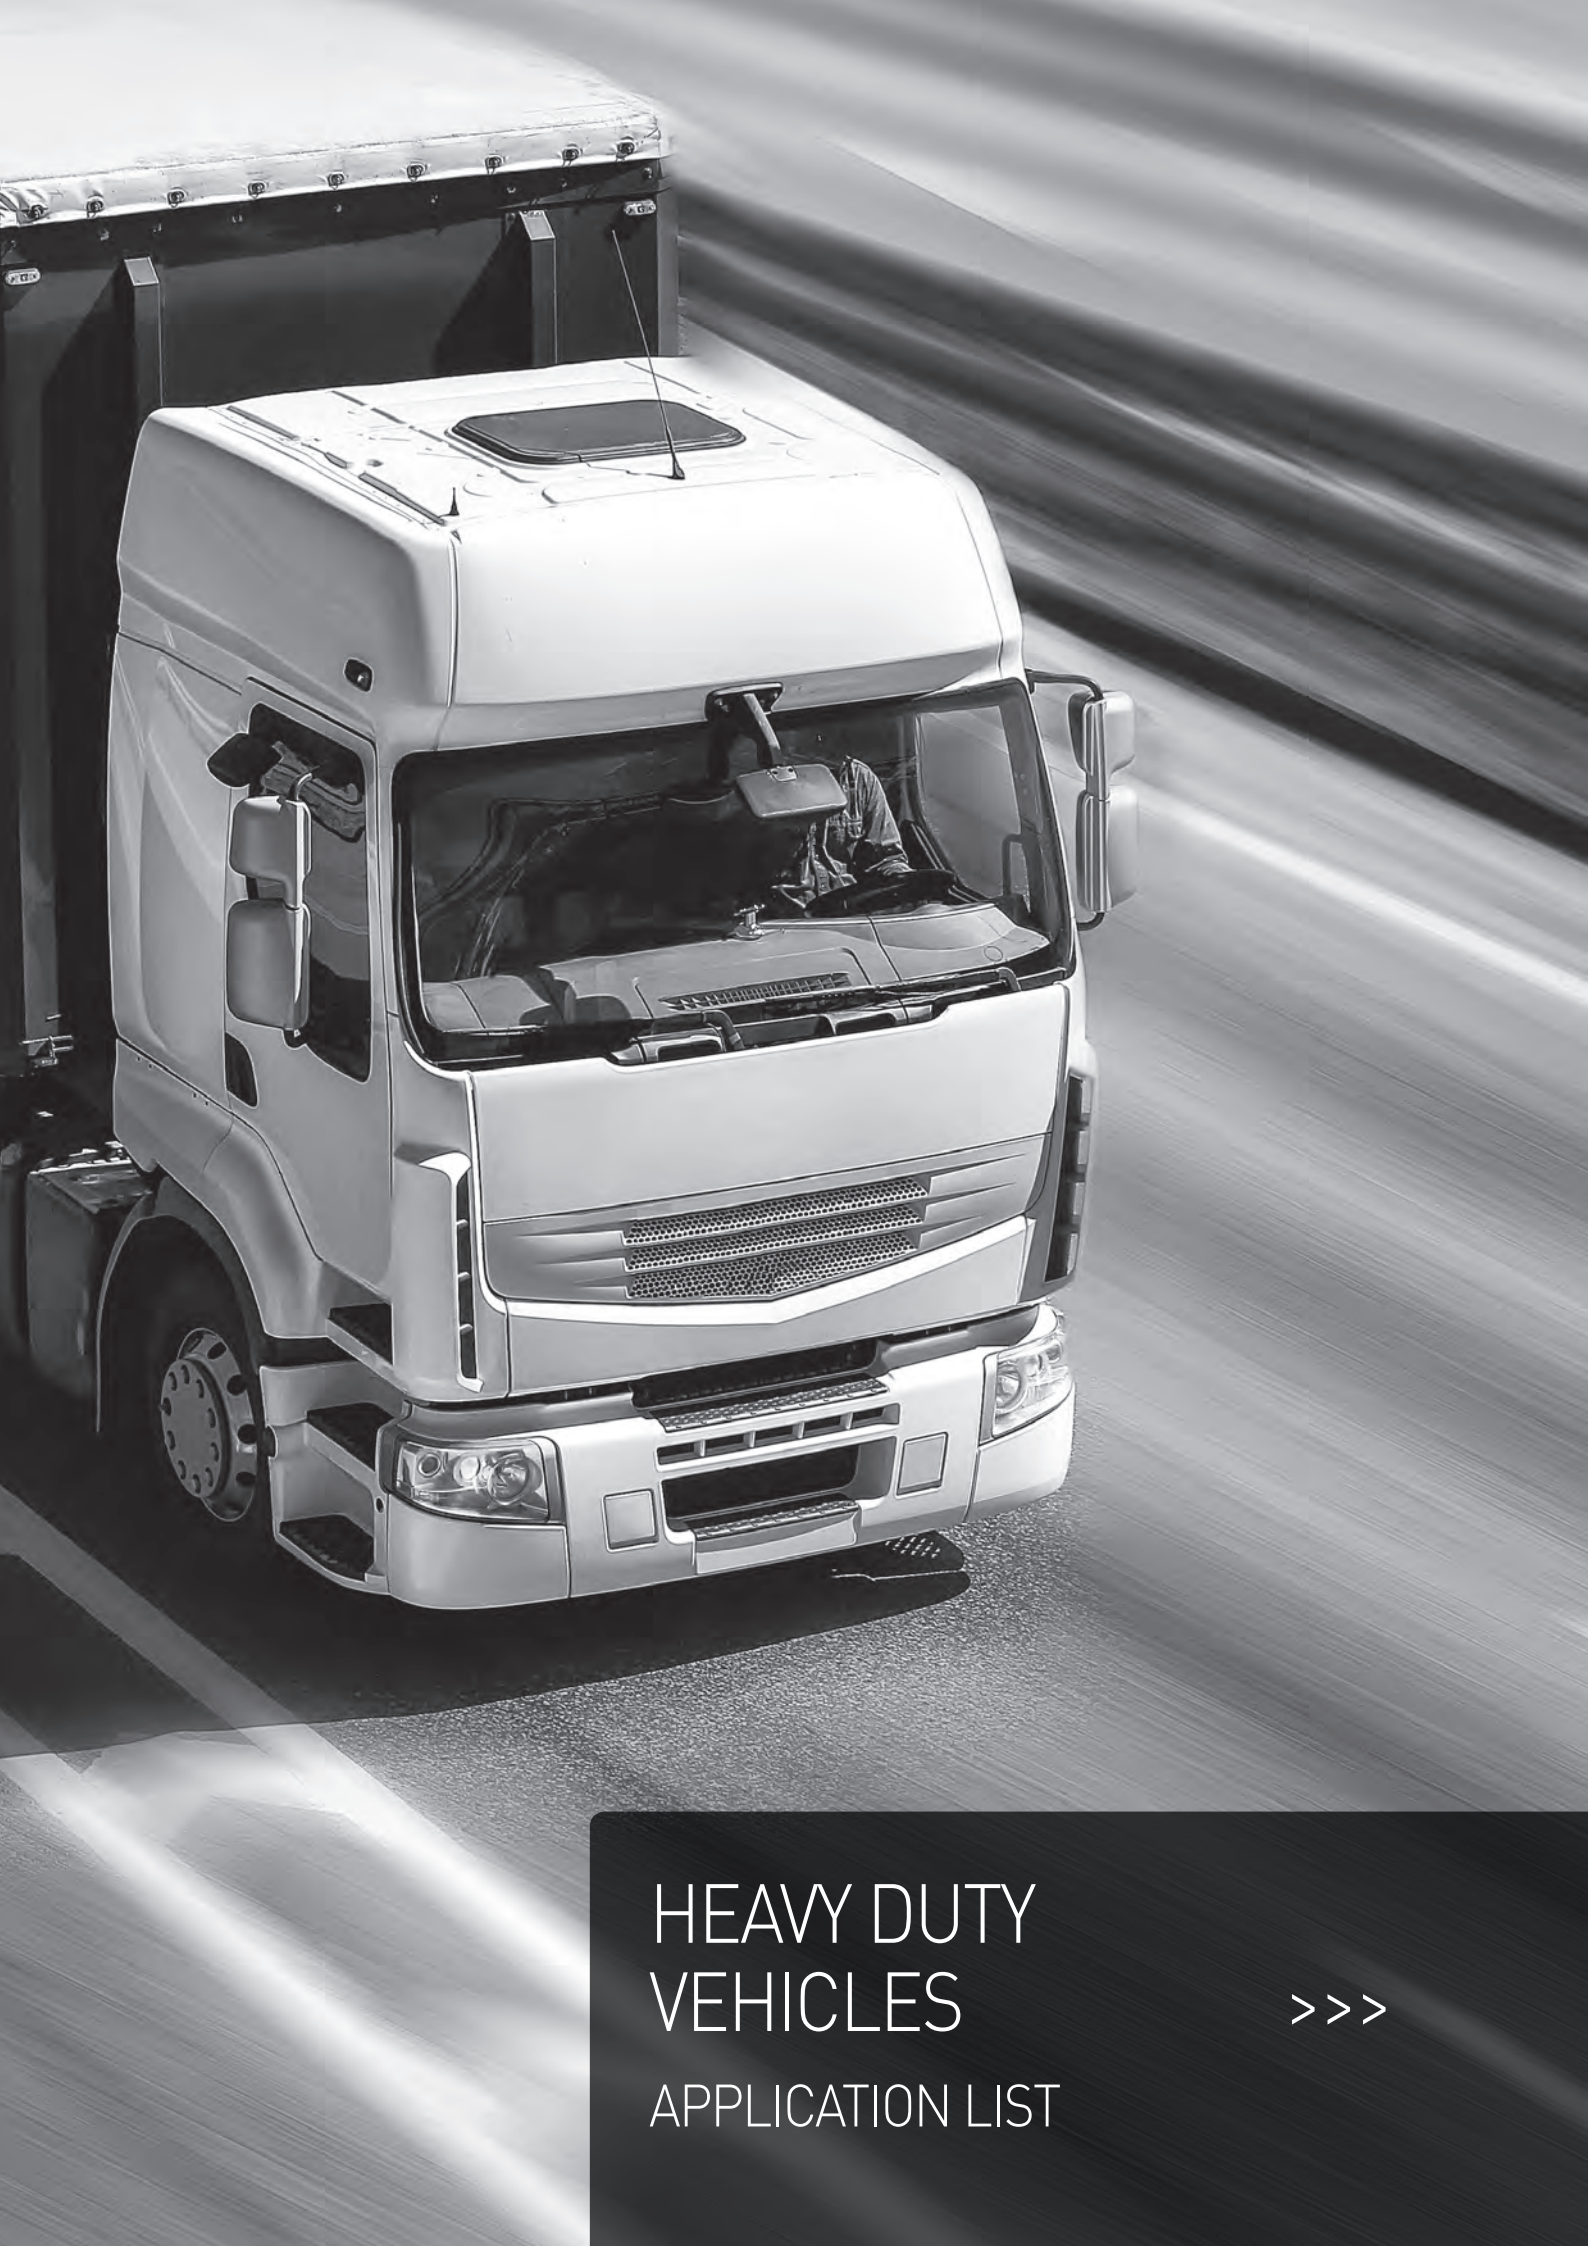

OLD FOR NEW!

Get extra value,
replace an old battery
for a new one.
